## ANNUAL FINANCIAL REPORT

# FISCAL YEAR ENDING JUNE 30, 2020

REVISED JULY 2020/VERSION 20.1

#### ANNUAL FINANCIAL REPORT FILING FEE FISCAL YEAR ENDING JUNE 30, 2020

024304 TOWN OF FROID PO Box 308 Froid, MT 59226 If the local government entity name or mailing address on the Department's mailing list is inaccurate or has changed recently please note the correction below.

\*\*If a filing fee is owed, please print the completed filing fee form and mail with your payment to:

Montana Department of Administration Local Government Services Mitchell Bldg - Room 270 PO Box 200547 Helena, MT 59620-0547

\*\*If no filing fee is owed, you <u>must</u> complete Part II to determine if an audit is required. <u>Please</u> assure a copy of the completed Determination of Filing Fee & Audit Requirement form is either included in your Annual Financial Report (AFR) or if not, a completed copy of the form is uploaded along with your AFR in the portal to ensure we enter the correct amount of adjusted debt proceeds in our system.

**PLEASE NOTE:** The "Determination of Filing Fee Form" - page 2 of 2 - is designed to be self-calculating. If you choose to print this form and manually fill it in, please adjust the "Filing Fee Owed" in Box #1, based on the Filing Fee Schedule included below. Please revise Box #2 to "YES" if the adjusted debt proceeds and total revenues received by your government indicate that an audit will be required.

If there is an amount listed in BOX #1 of the Determination of Filing Fee Form (page 2 of 2), please include a check or warrant for that amount, made payable to "State Treasurer" in the amount of the required fee.

#### LOCAL GOVERNMENT ANNUAL FILING FEE SCHEDULE

The following filing fee schedule is required by Section 2-7-514, MCA, and has been adopted as Section 2.4.402 of the Administrative Rules of Montana.

#### TOWN OF FROID RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FISCAL YEAR ENDING JUNE 30, 2020

hange in fund balances - total governmental funds (page 16 ) ounts reported for governmental activities in the statement of activities (page ) are different because:		(47,1
Governmental funds report capital outlays as expenditures while governmental activities		
report depreciation expense to allocate those expenditures over the life of the assets:		
Capital assets purchased		7,9
Depreciation expense	-	(15,6
In the Statement of Activities, the loss or gain on the sale or disposal of capital assets is recognized. The fund financial statements recognize only the proceeds from the sale	-	
of these assets:		
Gain (loss) on the disposal of capital assets		
Proceeds from the sale of capital assets	-	
Revenues in the Statement of Activities that do not provide current financial resources are		
not reported as revenues in the funds:		
Donated capital assets	-	
Long-term receivables (deferred inflow)	-	2,8
GASB68 recognition of On-behalf payments to Pension Plans	-	6
Long-term debt proceeds provide current financial resources to the governmental funds,		
but issuing debt increases long-term liabilities in the statement of net position:		
Capital lease proceeds	-	
Bond sale proceeds	-	
Loan proceeds	-	
Repayment of debt principal is an expenditure in the governmental funds, but the		
repayment reduces long-term debt in the Statement of Net Position:		
Capital lease obligation principal payments		
Long-term loan/contract principal payments	-	4,1
Long-term bond principal payments	-	
Internal service funds are used by management to charge the costs of certain activities, such as insurance and data processing, to individual funds. The net revenue of the		
internal service funds is reported with the governmental activities of the government-wide		
statement of activities net of the amounts allocated to business-type activities and		
depreciation expense		
Change in net position	0.00	
Net of amount allocated to business-type/external activities	0.00	
Depreciation Expense	0.00	
Some expenses reported in the Statement of Activities do not require the use of		
current financial resources and therefore are not reported as expenditures in		
governmental funds		~
Accrued compensated absenses	-	3
Pension & OPEB expense	-	(2,1

#### Summary of Significant Accounting Policies

The financial statements have been prepared in accordance with accounting principles generally accepted as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting principles. Pronouncements adopted in the fiscal year ending June 30, 2020 are described below.

The government adopted the provisions of the following GASB Statements:

GASB 83- This statement addresses accounting and financial reporting for certain asset reitrement obligations (AROs). An ARO is a legally enforceable liability associated with the reitrement of a tangible capital asset. GASB 88- The objective of the statement is to improve the information that is disclosed in the notes to the government financial statements related to debt, including direct borrowing and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. The statement requires additional essential information related to debt be disclosed in the notes to the financial statements, including unused lines of credit, assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant consequences, and significant subjective acceleration clauses. termination events with finance-related consequences, and significant subjective acceleration clauses.

The significant accounting policies are described below.

#### A. Reporting Entity

1.

The Town of Froid is a political subdivision of the State of Montana governed by a Mayor and Council

(Commission) duly elected by the registered voters of the Town. The Town utilizes the commission/executive form of government. The accompanying financial statements present the primary government and its component units, entities for which the government is considered to be financially accountable. Blended component units are part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government, but is financially accountable to or fiscally dependent upon the primary government or their omission from the financial statements would be misleading or incomplete.

Blended Component Unit:

Discretely Presented Component Unit: \_\_\_\_

#### B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary governments is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide statements. Major individual governmental funds and major individual enterprise funds are reported in separate columns in the fund financial statements.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont.

#### C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government. Taxes and assessments receivable remaining uncollected at year end are offset by deferred tax/assessment revenue, a deferred inflow of resources, since they are not available to pay liabilities of the current period.

Both financial statements presented on the accrual basis of accounting and the modified accrual basis of accounting recognize grants and similar items, pending purely routine requirements such as filing reimbursement and/or progress reports, where all eligibility requirements imposed by the provider have been met, other than time requirements, as revenue in the current period. Grants and similar items received prior to meeting time requirements but after all eligibility requirements are met, are recognized as deferred inflows of resources until use is required or first permitted.

#### The government reports the following major governmental funds:

General Fund - This is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

#### The government reports the following major proprietary funds:

Water Enterprise Fund - This fund is used to account for the operating and nonoperating revenues and expenses of the public water utility system. The fund is maintained on the full accrual basis of accounting.

Sewer Enterprise Fund - This fund is used to account for the operating and nonoperating revenues and expenses of the public sewer utility system. The fund is maintained on the full accrual basis of accounting.

Garbage Enterprise Fund - This fund is used to account for the operating and nonoperativng revenues and expenses of the public garbage collection system. The fund is maintained on a full accrual basis of accounting.

#### Additionally, the government reports the following fund types:

#### Fiduciary Funds

Trust & Agency Funds- Used to account for assets held by the Town in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. These may include (a) expendable trust funds, (b) nonexpendable trust fund, (c) pension trust funds, and (d) agency funds.

#### 1. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont.</u>

#### D. Measurement focus, basis of accounting, and financial statement presentation - cont.

The Governmental Accounting Standards Board (GASB) issued Statement No. 62. The Statement codifies the requirements of all pre-November 30, 1989 FASB and AICPA pronouncements that apply to state and local governments. Both the government-wide and proprietary fund financial statements follow the guidance of the Governmental Accounting Standards Board. Governments can continue to apply, as other accounting literature, post-November 30, 1989 FASB pronouncements that do not conflict with or contradict GASB pronouncements, including Statement No. 62. The government has adopted the provisions of GASB Statement No. 62.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the governments' enterprise functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions.

Amounts reported as program revenues include: 1) charges to customers for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and the government's internal service funds are charges to customers for services provided. Operating expenses for enterprise funds and internal service funds include the cost of providing such services and the depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### E. Assets, deferred outlflows of resources, liabilities, deferred iutflows of resources, and fund balance/net position

#### 1. Deposits and investments

Allowable deposit and investment of public funds is governed by Title 7, Chapter 6, Part 2 of the Montana Code Annotated (MCA). Deposits and investments may include demand, time, and savings deposits, direct obligations of the United States Government, securities issued by agencies of the United States, investments in the Montana Short-Term Investment Program (STIP), repurchase agreements, and registered warrants.

Cash equivalents are short-term, highly liquid investments that are both readily convertible to known amounts of cash, and have maturities at purchase date of three months or less. The cash and cash equivalents (including restricted assets) are considered to be cash on hand, demand, savings and time deposits, STIP and all short-term investments with original maturity dates of three months or less from the date of acquisition.

Investments, with limited exceptions, are reported at fair value. Investments in nonparticipating certificates of deposit are reported at cost. Money market investments, including U.S. Treasury and Agency obligations, that mature within one year of acquisition are reported at amortized cost. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is determined annually, and requires the use of valuation techniques, a specific method or combination of methods using one or more of three approaches: market, cost or income approach.

#### 2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at fiscal year end are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). Advances between funds are not available for appropriation and are not expendable available financial resources.

Accounts receivables are shown net of allowance for uncollectibles. Property tax receivables are offset by a deferred inflow account since they are not available to pay liabilities of the current period. All property tax levies are set at the time of the adoption of the annual budget. The real estate taxes are payable in two installments, the first due by November 30 and the second by May 31. Personal property taxes are assessed in April or May and are payable within 30 days of the issuance of the notice.

#### 3. Inventories and prepaid items

All inventories are valued at cost. Inventories are recorded as expenditures when purchased (when consumed).

Certain payments reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

#### 4. Restricted assets

Certain assets of the enterprise funds are restricted for specific use as required by the bond indenture agreement covenants established with the issuance and sale of the revenue bonds representing a liability to the enterprise funds. These restricted assets represent cash and cash equivalents restricted for use to repay current debt, establish a reserve for future debt and the establish a replacement and depreciation reserve for the purpose of replacing the system in the future.

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont. 1.

#### F. Assets, liabilities, and net position or equity - cont.

#### 5. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, curbs, etc), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets, other than infrastructure assets, are defined by the Local Government as assets with an initial cost of more than \$5,000.00 and an estimated useful life in excess of 5 years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Property, plant, and equipment of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

> Assets Buildings **Building improvements** Public domain infrastructure System infrastructure Vehicles Equipment other than vehicles Office equipment Computer equipment

#### 6. Deferred outflows of resources

Deferred outflow of resources is a financial statement element. A deferred outflow of resources is a consumption of net assets by the government that is applicable to a future reporting period. The government-wide statement of net position, proprietary fund statement of net position. and governmental fund balance sheet report a separate section for deferred outflows of resources. Deferred outflows of resources may be disclosed on the face of the financial statements, in the notes to the financial statements, or a combination of both. Deferred outflows of resources not disclosed on the face of the financial statements are as follows: Description: Amount:

Deferred outflows of pension recsources-water fund	2607.65
Deferred outflows of pension recsources-sewer fund	2607.65

#### 7. Compensated absences

As required by State law, the Local Government allows for employees to accumulate earned but unused vacation and sick leave benefits. Unused vacation leave benefits are 100 percent payable upon termination and 1/4 of unused sick leave benefits are payable upon termination. Such amounts are reported as liabilities in the appropriate governmental or business-type activity in the government wide statements. Expenditures for unpaid vacation and sick leave benefits are recorded when paid in the governmental funds on the modified accrual basis of accounting and expenses for vacation and sick leave benefits are recorded when accrued in the proprietary funds on the full accrual basis of accounting.

#### 8. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bond issue using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### 9. Deferred inflows of Resources

A deferred inflow of resources is an aquisition of net assets by the government that is applicable to a future reporting period. The government-wide statement of net position, proprietary fund statement of net position, and governmental fund balance sheet report a separate section for deferred inflows of resources. Deferred inflows of resources may be disclosed on the face of the financial statements, in the notes to the financial statements, or a combination of both. Deferred inflows of resources not disclosed on the face of the financial statements are as follows: Description: Amount:

Deferred inflows of pension resources-water fund	3600.11
deferred inflows of pension resources-sewer fund	3600.11

#### 10. Fund balance/Net Position

Governmental Accounting Standards Board (GASB) Statement No. 54 requires presentation of governmental fund balances by specific purpose. In the governmental fund financial statements, the fund balance classifications are presented either discretely or in the aggregate for the following fund balance classifications: non-spendable, restricted, committed, assigned and unassigned. GASB Statement No. 63 resulted in presentation changes in the government-wide and proprietary fund financial statements. Among other changes, equity is classified as 'net position'. Components of net position are net investment in capital assets, restricted, and unrestricted. See notes J and K for further information.

#### 11. Net Position significantly impacted by Deferred Outflows or Deferred Inflows of Resources.

GASB 63 requires disclosure of any deferrals that have a significant impact on Net Position. (Disclose here any deferrals that have a significant effect on Net Position)

#### 2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

 A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position. The governmental fund balance sheet includes a reconciliation between fund balance - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position. (Disclose here any element of that reconciliation which may require further analysis for the reader to understand)

(Disclose here any element of that reconciliation which may require further analysis for the reader to understand)

See financial statements for information.

#### 3. COMPLIANCE AND ACCOUNTABILITY

#### A. Budgetary Information

The Local Government adopts an annual budget for all of its funds in accordance with Title 7, Chapter 6, Part 40 of the Montana Code Annotated. Statute requires the adoption of a preliminary budget, public hearings on the preliminary budget and the final adoption of the budget by the later of the first Thursday after the first Tuesday in September or within 30 calendar days of the receipt of the certified taxable valuations from the Department of Revenue. The Local Government must also submit a copy of the final budget to the Department of Administration by the later of October 1 or 60 days after the receipt of taxable values from the Department of Revenue.

State statute limits the making of expenditures or incurring of obligations to the amount of the final budget as adopted or as amended. Budget transfers and amendments are authorized by law, and in some instances, may require further public hearings. Any budget amendments providing for additional appropriations must identify the fund reserves, unanticipated revenue, or previously unbudgeted revenue that will fund the appropriations.

Appropriations are created by fund, function, and activity and may further be detailed by department. Expenditure limitations imposed by law extend to the department level which is identified as the legal level of budgetary control.

Encumbrance accounting is not employed for the governmental funds. Encumbrances (e.g. purchase orders, contracts) outstanding at year end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent fiscal year.

#### B. Excess of expenditures over appropriations

#### EMPLOYER: Town of Froid PUBLIC EMPLOYEES' RETIREMENT SYSTEM - DEFINED BENEFIT GASB 68 NOTES TO THE FINANCIAL STATEMENTS FOR FISCAL YEAR ENDED JUNE 30, 2019 (MEASUREMENT DATE) June 30, 2020 (REPORTING DATE)

In accordance with GASB Statement 68, Accounting and Financial Reporting for Pensions, employers and the non-employer contributing entity are required to recognize and report certain amounts associated with participation in the Public Employees' Retirement System Defined Benefit Retirement Plan (the Plan). This includes the proportionate share of the collective Net Pension Liability; Pension Expense; and Deferred Outflows and Deferred Inflows of Resources associated with pensions. Employers are provided guidance in GASB Statement 68, paragraph 74, where pension amounts must be combined as a total or aggregate for reporting, whether provided through cost-sharing, single-employer, or agent plans. This report provides information for employers who are using a June 30, 2019 measurement date for the 2020 reporting. If an employer's fiscal year end is after June 30th, the employer will not use the measurements shown in this report but will need to wait for the measurement date as of June 30, 2020.

#### Summary of Significant Accounting Policies - 79

MPERA prepared financial statements using the accrual basis of accounting. The same accrual basis was used by MPERA for the purposes of determining the Net Pension Liability (NPL); Deferred Outflows of Resources and Deferred Inflows of Resources related to pensions; Pension Expense; the Fiduciary Net Position; and Additions to or Deductions from Fiduciary Net Position. Member contributions are recognized in the period in which contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Revenues are recognized in the accounting period they are earned and become measurable. Benefit payments and refunds are recognized in the accounting period in which they are due and payable in accordance with the benefit terms. Expenses are recognized in the period incurred. Investments are reported at fair value. MPERA adhered to all accounting principles generally accepted by the United States of America. MPERA applied all applicable pronouncements of the Governmental Accounting Standards Board (GASB).

#### General Information about the Pension Plan - 76a, 76b, 76c

*Plan Description - 76a*: The PERS-Defined Benefit Retirement Plan (DBRP), administered by the Montana Public Employee Retirement Administration (MPERA), is a multiple-employer, cost-sharing plan established July 1, 1945, and governed by Title 19, chapters 2 & 3, Montana Code Annotated (MCA). This plan provides retirement benefits to covered employees of the State, and local governments, and certain employees of the Montana University System, and school districts. Benefits are established by state law and can only be amended by the Legislature.

All new members are initially members of the PERS-DBRP and have a 12-month window during which they may choose to remain in the PERS-DBRP or join the PERS-DCRP by filing an irrevocable election. Members may not be participants of both the *defined benefit* and *defined contribution* retirement plans. All new members from the universities also have a third option to join the university system's Montana University System Retirement Program (MUS-RP).

*Benefits provided - 76b*: The PERS-DBRP provides retirement, disability, and death benefits to plan members and their beneficiaries. Benefits are based on eligibility, years of service, and highest average compensation (HAC). Member rights are vested after five years of service.

#### Service retirement:

- Hired prior to July 1, 2011
  - Age 60, 5 years of membership service
  - Age 65, regardless of membership service
  - Any age, 30 years of membership service
- Hired on or after July 1, 2011
  - Age 65, 5 years of membership service
  - o Age 70, regardless of membership service

#### Early Retirement

- Hired prior to July 1, 2011
  - Age 50, 5 years of membership service
    - Any age, 25 years of membership service
- Hired on or after July 1, 2011
  - Age 55, 5 years of membership service
- Second Retirement (requires returning to PERS-covered employer or PERS service):
  - Retire before January 1, 2016 and accumulate less than 2 years additional service credit or retire on or after January 1, 2016 and accumulate less than 5 years additional service credit:
    - A refund of member's contributions plus return interest (currently .77% effective July 1, 2017).
    - No service credit for second employment;
    - $\circ$   $\;$  Start the same benefit amount the month following termination; and
    - Guaranteed Annual Benefit Adjustment (GABA) starts again in the January immediately following the second retirement
  - Retire before January 1, 2016 and accumulate at least 2 years of additional service credit:
    - A recalculated retirement benefit based on provisions in effect after the initial retirement; and
       GABA starts on the recalculated benefit in the January after receiving the new benefit for 12 months
  - Retire on or after January 1, 2016 and accumulate 5 or more years of service credit:
    - The same retirement as prior to the return to service;
    - A second retirement benefit as prior to the second period of service based on laws in effect upon the rehire date; and
    - GABA starts on both benefits in the January after receiving the original and the new benefit for 12 months.

#### Member's highest average compensation (HAC)

- Hired prior to July 1, 2011 highest average compensation during any consecutive 36 months;
- Hired on or after July 1, 2011 highest average compensation during any consecutive 60 months;

#### Compensation Cap

 Hired on or after July 1, 2013 – 110% annual cap on compensation considered as part of a member's highest average compensation.

#### Monthly benefit formula

- Members hired prior to July 1, 2011:
  - $\circ~$  Less than 25 years of membership service: 1.785% of HAC per year of service credit;
  - $\circ~$  25 years of membership service or more: 2% of HAC per year of service credit.
- Members hired on or after July 1, 2011:
  - Less than 10 years of membership service: 1.5% of HAC per year of service credit;
  - 10 years or more, but less than 30 years of membership service: 1.785% of HAC per year of service credit;
  - $\circ~$  30 years or more of membership service: 2% of HAC per year of service credit.

#### Guaranteed Annual Benefit Adjustment (GABA)

After the member has completed 12 full months of retirement, the member's benefit increases by the applicable percentage (provided below) each January, **inclusive** of other adjustments to the member's benefit.

- 3% for members hired **prior** to July 1, 2007
- 1.5% for members hired between July 1, 2007 and June 30, 2013
- Members hired on or after July 1, 2013:
  - (a) 1.5% for each year PERS is funded at or above 90%;
    - (b) 1.5% is reduced by 0.1% for each 2% PERS is funded below 90%; and
  - (c) 0% whenever the amortization period for PERS is 40 years or more.

*Contributions* - 76*c:* The state Legislature has the authority to establish and amend contribution rates. Member and employer contribution rates are specified by Montana Statute and are a percentage of the member's compensation. Contributions are deducted from each member's salary and remitted by participating employers.

Special Funding: The state of Montana, as the non-employer contributing entity, paid to the Plan, additional contributions that qualify as special funding. Those employers who received special funding are all participating employers.

*Not Special Funding:* Per Montana law, state agencies and universities paid their own additional contributions. The employer paid contributions are *not* accounted for as special funding for state agencies and universities but are reported as employer contributions.

Member and employer contribution rates are shown in the table below.

1. Member contributions to the system of 7.9% are temporary and will be decreased to 6.9% on January 1 following actuary valuation results that show the amortization period has dropped below 25 years and would remain below 25 years following the reduction of both the additional employer and additional member contribution rates.

#### 2. Employer contributions to the system:

a. Effective July 1, 2014, following the 2013 Legislative Session, PERS-employer contributions increase an additional 0.1% a year and will continue over 10 years through 2024. The additional employer contributions including the 0.27% added in 2007 and 2009, will terminate on January 1 following an actuary valuation that shows the amortization period of the PERS-DBRP has dropped below 25 years and remains below the 25 years following the reduction of both the additional employer and member contributions rates.

b. Effective July 1, 2013, employers are required to make contributions on working retirees' compensation. Member contributions for working retirees are not required.

c. The portion of employer contributions allocated to the PCR are included in the employers reporting. The PCR was paid off effective March 2016 and the contributions previously directed to the PCR are now directed to member accounts.

- 3. Non Employer Contributions:
  - a. Special Funding
    - i. The state contributed 0.1% of members' compensation on behalf of local government entities.
    - ii. The state contributed 0.37% of members' compensation on behalf of school district entities.
    - iii. The state contributed a Statutory Appropriation from the General Fund of \$33,615,000.

GASB Statement 68 allows a measurement date of up to 12 months before the employer's fiscal year-end can be utilized to determine the Plan's TPL. The basis for the TPL as of June 30, 2019, was determined by taking the results of the June 30, 2018, actuarial valuation and applying standard roll forward procedures. The roll forward procedure uses a calculation that adds the annual normal cost (also called the service cost), subtracts the actual benefit payments and refunds for the plan year, and then applies the expected investment rate of return for the year. The roll forward procedure will include the effects of any assumption changes and legislative changes. The update procedures are in conformity with Actuarial Standards of Practice issued by the Actuarial Standards Board.

The Total Pension Liability (TPL) minus the Fiduciary Net Position equals the Net Pension Liability (NPL). The proportionate shares of the employer's and the state of Montana's NPL for June 30, 2019, and 2018, are displayed below. The employer's proportionate share equals the ratio of the employer's contributions to the sum of all employer and non-employer contributions during the measurement period. The state's proportionate share for a particular employer equals the ratio of the contributions for the particular employer to the total state contributions paid. The employer recorded a liability of \$5,638,132 and the employer's proportionate share was 0.269727 percent.

The employer recorded a liability of	60565
and the employers proportionate share was	0.002897 percent.

The most recent experience study, performed for the period covering fiscal years 2011 through 2016, is outlined in a report dated May 5, 2017 and can be located on the MPERA website. The long-term expected return on pension plan assets is reviewed as part of the regular experience studies prepared for the Plan. Several factors are considered in evaluating the long-term rate of return assumption including historical rates of return, rate of return assumptions adopted by similar public-sector systems, and by using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation (78c & 78f) as of June 30, 2018, are summarized below.

Asset Class	Target Asset Allocation	Long-Term Expected Real Rate of Return
Cash Equivalents	3.0%	4.09%
Domestic Equity	36.0%	6.05%
Foreign Equity	18.0%	7.01%
Fixed Income	23.0%	2.17%
Private Equity	12.0%	10.53%
Real Estate	8.0%	5.65%
Total	100%	

*Discount Rate - 78a, 78b, 78d, 78e:* The discount rate used to measure the TPL was 7.65%. The projection of cash flows used to determine the discount rate assumed that contributions from participating plan members, employers, and non-employer contributing entities would be made based on the Board's funding policy, which established the contractually required rates under Montana Code Annotated. The State contributes 0.1% of salaries for local governments and 0.37% for school districts. In addition, the state contributed a statutory appropriation from the general fund. Based on those assumptions, the Plan's fiduciary net position was projected to be adequate to make all the projected future benefit payments of current plan members through the year 2121. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability. A municipal bond rate was not incorporated in the discount rate.

Sensitivity of the proportionate share of the net pension liability to changes in the discount rate - 78g: The following presents the employer's sensitivity of the NPL to the discount rate in the table below. A small change in the discount rate can create a significant change the liability. The NPL was calculated using the discount rate of 7.65%, as well as what the NPL would be if it were calculated using a discount rate 1.00% lower or 1.00% higher than the current rate.

	1.0% Decrease	Current Discount	1.0% Increase
As of measurement date	(6.65%)	Rate	(8.65%)
Employer's Net Pension			
Liability	\$87,015.00	\$60,565.00	\$38,337.00

#### PERS Disclosure for the defined contribution plan - 126

The employer contributed to the state of Montana Public Employee Retirement System Defined Contribution Retirement Plan (PERS-DCRP) for employees that have elected the DCRP. The PERS-DCRP is administered by the PERB and is reported as a multiple-employer plan established July 1, 2002, and governed by Title 19, chapters 2 & 3, MCA.

All new PERS members are initially members of the PERS-DBRP and have a 12-month window during which they may choose to remain in the PERS-DBRP or join the PERS-DCRP by filing an irrevocable election. Members may not be participants of both the *defined benefit* and *defined contribution* retirement plans.

Member and employer contribution rates are specified by state law and are a percentage of the member's compensation. Contributions are deducted from each member's salary and remitted by participating employers. The state Legislature has the authority to establish and amend contribution rates.

Benefits are dependent upon eligibility and individual account balances. Participants are vested immediately in their own contributions and attributable income. Participants are vested after 5 years of membership service for the employer's contributions to individual accounts and the attributable income. Non-vested contributions are forfeited upon termination of employment per 19-3-2117(5), MCA. Such forfeitures are used to cover the administrative expenses of the PERS-DCRP.

At the plan level for the measurement period ended June 30, 2019, the PERS-DCRP employer did not recognize any net pension liability or pension expense for the *defined contribution* plan. Plan level non-vested forfeitures for the 316 employers that have participants in the PERS-DCRP totaled

Pension plan fiduciary net position: The stand-alone financial statements (76d) of the Montana Public Employees Retirement Board (PERB) *Comprehensive Annual Financial Report* (CAFR) and the GASB 68 Report disclose the Plan's fiduciary net position. The reports are available from the PERB at PO Box 200131, Helena MT 59620-0131, (406) 444-3154 or both are available on the MPERA website at <a href="http://mpera.mt.gov/index.shtml">http://mpera.mt.gov/index.shtml</a>.

#### 4. DETAILED NOTES ON ALL FUNDS - cont.

#### I. <u>1. Fund Balance Disclosure:</u>

The Governmental Accounting Standards Board, Statement No. 54, requires presentation of governmental fund balances by specific purpose. In the basic financial statements, the fund balance classifications are presented in the aggregate for the following fund balance classifications: non-spendable, restricted, committed, assigned and unassigned.

Non-spendable includes fund balances that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.

Restricted includes fund balances that are constrained for specific purposes which are externally imposed by providers such as creditors, or amounts constrained due to law, constitutional provisions or enabling legislation.

Committed includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and does not lapse at year-end.

Assigned includes fund balance amounts that are intended to be used for a specific purpose that are neither considered restricted or committed.

Fund balances may be assigned by the following designated individuals, positions or bodies:

a. Mayor	
b. Council	
By taking the following action:	

Unassigned fund balance includes positive fund balance within the General Fund which has not been classified within the above mentioned classifications. Negative fund balances in other governmental funds will be reported as unassigned.

#### 2. Net Position

The government-wide and proprietary fund financial statements report net position. Net position represent the difference between assets plus deferred outflow of resources and liabilities plus deferred inflows of resources. Components of net position are net investment in capital assets, restricted, and unrestricted. Net investment in capital assets consists of capital assets net of accumulated depreciation plus capital related deferred outflows of resources, less outstanding balance of any related borrowing used for the acquisition, construction, or improvement of those assets and capital related deferred inflows of resources. Restricted net position is defined above (see J1.), and unrestricted net position is any portion of net position that does not meet the definition of net investment in capital assets and restricted.

#### J. Spending policy:

The Local Government receives inflows from revenue and other financial sources from numerous sources for use in the General fund. The Fund will expend those resources on multiple purposes of the local government. The intention of this spending policy is to identify the expenditure order of resource categories for the General Fund. Resources will be categorized according to Generally Accepted Accounting Principles (GAAP) for state and local governments. When both restricted and unrestricted resources are available in the General Fund, the following spending policy will apply or the default will apply if a policy has not been adopted:

Restricted
Committed
Assigned
Unassigned

The Local Government receives inflows from revenue and other financial sources from numerous sources for use in the Special Revenue, Debt Service and Capital Projects funds. These funds will expend those resources on the specific purpose of the fund.

The intention of this spending policy is to identify the expenditure order of resource categories for these Funds. Resources will be categorized according to Generally Accepted Accounting Principles (GAAP) for state and local governments. When both restricted and unrestricted resources are available in these funds, the following spending policy will apply or the default will apply if a policy has not been adopted:

1st:	Restricted			
2nd:	Committed			
3rd:	Unassigned			

#### K. Minimum Fund Balance Policy:

The Local Government has/or does not have a minimum fund balance policy in place. (Describe the fund balance policy is applicable).

#### L. Major Special Revenue Funds:

#### **Changes of Benefit Terms**

The following changes to the plan provisions were made as identified:

#### 2017

#### Working Retiree Limitations - for PERS

Effective July 1, 2017, if a PERS retiree returns as an independent contractor to what would otherwise be PERS-covered employment, general contractor overhead costs are excluded from PERS working retiree limitations.

#### Refunds

1) Terminating members eligible to retire may, in lieu of receiving a monthly retirement benefit, refund their accumulated contributions in a lump sum.

2) Terminating members with accumulated contributions between \$200 and \$1,000 who wish to rollover their refund must do so within 90 days of termination of service.

3) Trusts, estates, and charitable organizations listed as beneficiaries are entitled to receive only a lump-sum payment.

**Interest credited to member accounts –** Effective July 1, 2017, the interest rate credited to member accounts increased from 0.25% to 0.77%.

#### Lump-sum payouts

Effective July 1, 2017, lump-sum payouts in all systems are limited to the member's accumulated contributions rate than the present value of the member's benefit.

#### **Disabled PERS Defined Contribution (DC) Members**

PERS members hired after July 1, 2011 have a normal retirement age of 65. PERS DC members hired after July 1, 2011 who became disabled were previously only eligible for a disability benefit until age 65. Effective July 1, 2017, these individuals will be eligible for a disability benefit until they reach 70, thus ensuring the same 5-year time period available to PERS DC disabled members hired prior to July 1, 2011 who have a normal retirement age of 60 and are eligible for a disability benefit until they reach 70.

#### **Changes in Actuarial Assumptions and Methods**

#### Method and assumptions used in calculations of actuarially determined contributions

The following Actuarial Assumptions were adopted from the June 30, 2016 Experience Study:

General Wage Growth*	3.50%
Investment Rate of Return*	7.65%
*Includes inflation at	2.75%
Merit salary increases	0% to 8.47%
Asset valuation method	4-year smoothed market
Actuarial cost method	Entry age Normal
Amortization method	Level percentage of payroll, open
Mortality (Healthy members)	For Males and Females: RP 2000 Combined Employee and Annuitant Mortality Table projected to 2020 using Scale BB, males set back 1 year
Mortality (Disabled members)	For Males and Females: RP 2000 Combined Mortality Table
Admin Expense as % of Payroll	0.26%

Administrative expenses are recognized by an additional amount added to the normal cost contribution rate for the System. This amount varies from year to year based on the prior year's actual administrative expenses.
